5th INTERNATIONAL CONFERENCE ON DIGITAL ECONOMY
(Building a Resilient Digital Economy: Fostering New-Age Digital Technologies)
2nd -3rd Dec., 2022
Organized by
Indian Institute of Management Raipur
in Association with
India Chapter of the Association for Information Systems
Venue: IIM Raipur

International Conference on Digital Economy is IIM Raipur's flagship conference dedicated to the cause of advancing the interest of Digital Economy in the country. The theme of this year's conference is 'Building a Resilient Digital Economy'. The COVID-19 pandemic has demonstrated that resiliency is of utmost importance for business. The globally interconnected, digital world of today seeks novel, technology-enabled approaches to deal with crisis, challenging traditional approaches to business resiliency and IT risk and disaster recovery. Governments, organizations and society at large must leverage new-age digital technologies not only to respond rapidly to crises, but also to adapt to new conditions and capitalize on them. In this conference, our quest is to answer the question of how we can become a resilient digital economy using new-age digital technologies. ICDE 2022 will feature two panel discussions on the theme and one workshop apart from paper presentations. We invite papers that specifically address the management related issues arising in the context of building a resilient digital economy. Following is the list of topics on which papers can be submitted. However, papers that are related to digital economy and are not covered by the tracks below, will also be considered.

PAPER SUBMISSION

Extended abstracts of your work must be submitted by 15th November 2022 using ICDE 2022's submission system. Each submission must be original and not submitted to another journal or conference. The guidelines for preparing the extended abstract as well as the submission template is available at the Conference's website. The accepted papers will be indexed at INAIS repository. However, the author(s) will retain the copyright of their work and can submit anywhere else after this conference. There will be zero tolerance for plagiarism in submissions at all stages of the conference. Selected papers from the conference will be invited for publication in reputed journals after due review process (the list will be updated soon on the website). The list of participating journals will also be available on the website.

REGISTRATION

For a paper to be considered for presentation in the conference, at least one author must register for the conference. To participate in the conference, however, each author willing to participate must register, either onsite or online. The details of the registration fees* are as follows:

The registration fee covers conference kits, participation in the program, social event and meals for two days during the conference. A GST of 18% need to be added to the fee during submission.
